

# Snow 302: Mac OS X Deployment 10.6

Authorized  
Training Center

## Course Description

This three-day course focuses on solutions for deployment and maintenance of Mac OS X v 10.6. This ranges from the installation of individual files to the deployment of complete system images to multiple computers. Students then apply what they've learned to create a full deployment plan that includes testing, hardware and software deployment, auditing and maintenance.

## Who Should Attend

This class is for Mac OS X system administrators who need to know how to streamline the process of installing and configuring a large number of computers running Mac OS X.

## What You Will Learn

The course also teaches students how to create a tiered Software Update server solution, as well as about third-party solutions to supplement tools provided by Apple. Students get hands-on experience in using tools such as Apple Remote Desktop, Disk Utility, PackageMaker, and System Image Utility and discuss the pros and cons of each for different deployment situations.

## Topics

- Deployment Planning
- Deployment Individual Items and Containers
- Deployment with Installation Packages
- Creating System Images
- Deploying System Images
- Postimaging Deployment Considerations
- System Maintenance

## Build credibility and get Certified. Apple Certified System Administrator

This course covers a portion of the knowledge necessary to become an Apple Certified System Administrator 10.6. ACSA certification is granted upon successful completion of the Mac OS X Server Essentials v10.6, Mac OS X Directory Services v10.6, Mac OS X Deployment v10.6, and Mac OS X Security and Mobility v10.6 exam.

*Prior to attending this course students should have the following prerequisite knowledge:*

- Understanding of Mac OS X
- Basic troubleshooting experience or Mac OS X Support Essentials v10.6
- Basic Mac OS X Server experience or Mac OS X Server Essentials v10.6
- Experience with Mac OS X in a network environment
- Experience using the command-line interface with Mac OS X

**This course will be taught in English with English OSX and English text books**

College of MultiMedia is an Apple Authorized Training Center offering courses that are part of the official 'Apple Certification Program': Professional Applications, System, Server Training and additionally for beginners: Mac OS X and iLife courses.
